2.0 Audit Process

2.1 Audit Objectives

The objectives of the audit are to verify the management system conforms with all the requirements of the MSPO standards and that the organization has effectively implemented the planned MSPO management system as well as to check if the management system can achieve the organization's policy objectives.

2.2 Audit Methodology

Annual Surveillance Audit Year 1 (ASA-1) was conducted on 10 November 2021. During ASA-1 Audit, the audit team did it through the remote audit due to the current Pandemic Covid19 situation. All the relevant documents and evidence is verified virtually according to the implementation of the MSPO (MS2530-3:2013) Part 3: General Principles for Oil Palm Plantations and Organized Smallholders. Interviews were carried out with the team management, employees, contractors, and other relevant stakeholders. Documents and records verification was also done to further support and validate findings from the previous Stage 2 Audit. The methodology for collecting objective evidence is through remote audit, observation of tasks and processes virtually, interviews with management, employees and workers, consultations with contractors and stakeholders as well as documents review and data monitoring through the. The audit evidence obtained were based on samples of information available; thereby introduces the element of uncertainty.
