AUDIT METHODOLOGY

Audit Objectives	• To confirm the client's management system conformation with all the audit standard requirement • To confirm that the organization has effectively implemented the planned management system • To confirm that the management system is capable of achieving the organization's policy objectives. • To make appropriate recommendations based on the audit findings
Certification Standard	MSPO (MS2530-3:2013) - Part 3: General Principles for Oil Palm Plantations and Organized Smallholders
Certification Type	Individual (Oil Palm Estate)

Audit Methodology	The methodology for collecting objective evidence is by documentations review, physical site inspection, observation of tasks and processes as well as interviews. Physical site visit is done to the field, workers quarters, workshop, chemical store, waste collection areas and other surrounding facilities such as clinic, surau and sundry shop. Interviews are done with the management unit's management, employees, contractors and other relevant stakeholders were also conducted during the audit. The audit evidence obtained were based on samples of information available; thereby introduces the element of uncertainty.	
Calculation of Sample Size	The sample size is determined by the following formula: $S = r \sqrt{np}$; Whereby S = sample size r = risk factor n = number of members. r is selected as per below: • Low risk: risk factor 1.0 • Medium risk: risk factor 1.5 • High risk: risk factor 2 The lowest possible sample size number is one. Sampling calculation is not applicable for individual certification audit.

AUDIT CONCLUSION AND RECOMMENDATION

The audit objectives have been achieved and the certificate scope remains appropriate. Based on the audit findings the audit team concluded that:

- The management system documentation demonstrated conformity with the requirements of the audit standard and provided sufficient structure to support implementation and maintenance of the management system
- The management system is in line with the requirements of the standard and demonstrated the ability of the system to systematically achieve agreed requirements for products or services within the scope and the organization's policies and objectives.
- There was no complaint received during the field assessment and during interview with the external stakeholders.
- Throughout the audit process, the management system demonstrated overall conformance with the requirements of the audit standard.

Therefore, the audit team recommends that, based on the results of this audit and the organization commitment towards complying with **MSPO (MS2530-3:2013) Part 3: General Principles for Oil Palm Plantation and Organized Smallholders**, management system certification be granted to **Taytex Plantation Sdn Bhd.**
